# Go Directly to Jail

Known worldwide as a maximum security prison for incorrigible offenders, Alcatraz has been immortalized in film and American folklore. You'll learn about the Rock's most colorful inmate, the Birdman. You'll see where, in 1962, three desperate convicts using homemade floats slipped into the frigid waters of San Francisco Bay, never to be seen again.

A year later, the federal prison on Alcatraz Island was closed and in 1972 it was made part of the Golden Gate National Recreation Area. Now you can get a taste of what life was once like on the Rock. Best of all, you'll be allowed to leave.

In conjunction with the 1995 BMA Investment Management & Trust Marketing Conference, Fidelity Investments cordially invites you on a fascinating private tour of Alcatraz Island.

**Monday,  
October 23, 1995**

*Immediately following the guided tour,  
please join us as our guest for dinner at Pier 35.*

*Round-trip bus transportation departs from
